Amazing Science in the King James Bible

59. Do Not Consume Blood

(Leviticus 17:12)

A common ritual in many religions in the ancient world was to drink blood. However, the Creator repeatedly told His people to abstain from blood (Genesis 9:4; Leviticus 3:17; Acts 15:20; Acts 21:25). Of course, modern science reveals that consuming raw blood is dangerous.

60. The Bible Describes Dinosaurs

(Job 40:15-24)

In 1842, Sir Richard Owen coined the word dinosaur, meaning "terrible lizard," after discovering large reptilian-like fossils. However in the book of Job, written 4,000 years earlier, God describes behemoth as: the largest of all land creatures, plant eating (herbivores), with great strength in its hips and legs, powerful stomach muscles, a tail like a cedar tree, and bones like bars of iron. This is an accurate description of sauropods - the largest known dinosaur family.

Luke 2:10-11

*And the angel said unto them,
Fear not: for, behold, I bring you
good tidings of great joy, which
shall be to all people. For unto you
is born this day in the city of David a
Saviour, which is Christ the Lord.*

Victory Verses: Absenteeism

*"Those that be
planted in the house
of the LORD shall flourish
in the courts of our God.*

Psalm 92:13

Proverbs 25:28

*"Not forsaking the assembling of
ourselves together, as the manner
of some is; but exhorting one
another: and so much the
more, as ye see the day
approaching.*

The psalmist said, "Thy word have I hid in mine heart, that I might not sin against thee." (Psalm 119:11).

Hide God's Word in
your heart, and protect
yourself from sin!
