Contenders for our Country

SIGNERS OF THE DECLARATION OF INDEPENDENCE

Signer #8: Robert Treat Paine (1731-1814)

Massachusetts. Age at signing: 45

Married: Sally. 8 children. **Occupation:** Lawyer, Chaplain, Preacher

Quotes & Notes:

The honorary degree of doctor of laws was conferred upon him by Harvard University. Judge Paine was a firm believer in the divine origin of the Christian religion. He gave full credence to the scriptures, as a revelation from God, designed to instruct mankind in a knowledge of their duty, and to guide them in the way to eternal happiness."

Paine said, "I am constrained to express of adoration my the Supreme Being - the Author of my existence - in full belief of . . . His forgiving mercy revealed to the world through Jesus Christ, through Whom I hope for never ending happiness in a future state."

A Dozen Questions Evolutionists Should Answer if they Could:

1. Where did the space for the universe come from?
2. Where did matter come from?
3. Where did the laws of the universe come from (gravity, inertia, etc)?
4. How did matter get so perfectly organized?
5. Where did the energy come from to do all the organizing?
6. When, where, why and how did life come from dead matter?
7. When, where, why and how did life learn to reproduce itself?
8. With what did the first cell capable of sexual reproduction reproduce?
9. Why would any plant or animal want to reproduce more of its kind since this would only make more mouths to feed and decrease the chances of survival? (Does the individual have a drive to survive, or the species? How do you explain this?)
10. How can mutations (recombining of the genetic code) create any new, improved varieties? (recombining English letters will never produce Chinese books.)
11. Is it possible that similarities in design between different animals prove a common Creator instead of a common ancestor?
12. Natural selection only works with the genetic information available and tends only to keep a species stable. How would you explain the increasing complexity in the genetic code that must have occurred if evolution were true?
