*Eden Corn Festival Parade*  
Sunday, August 7, Noon

**Need #1:** Wrapped hard candy to throw from our float. Collection box in the Hemlock foyer.

**Need #2:** Float construction workers on August 6, right after Men's Breakfast.

**Need #3:** People to proceed the Parade with empty bags for children watching. Each bag will have a VBS invite and gospel verses.

**Need #4:** Musicians to play on the float, Tract-Passer-Outers to walk alongside the float, responsible teens to throw candy.

**Need #5:** A Sunday afternoon meal for all float participants and our guest from Ireland.

**Random Fact:** We're going to have a 32' Hook & Ladder truck in the parade, beside our float!

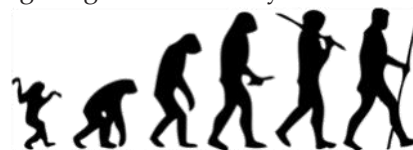

**Sign up today if you can help with #2,#3, or #4.**  
**See Mrs. Kohl if you can help with #5.**

*Charles Darwin's doubts about Evolution in his own words:*

"There are two or three million species on Earth ... but it must be said that, in spite of all the efforts of trained observers, not one change of a species into another is on record."

"As by this theory innumerable transitional forms must have existed, why do we not find them embedded in countless numbers in the crust of the earth? The number of intermediate links between all living and extinct species must have been inconceivably great!"

Charles Darwin also said, "Why then is not every geological formation and every stratum full of such intermediate links? Geology assuredly does not reveal any such fine graduated organic chain; and this, perhaps, is the most obvious and serious objection which can be urged against the theory."
