2 Timothy 2:15!

Those Wasted Years

I looked upon a farm one day,
 That once I used to own;
 The barn had fallen to the ground,
 The fields were overgrown.
 The house in which my children grew,
 Where we had lived for years -
 I turned to see it broken down,
 And brushed aside the tears.
 I looked upon my soul one day,
 To find it too had grown
 With thorns and nettles everywhere,
 The seeds neglect had sown.
 The years had passed while I had cared
 For things of lesser worth:
 The things of Heaven I let go
 When minding things of earth.
 To Christ I turned with bitter tears,
 And cried, "O Lord, forgive!
 I haven't much time left for Thee,
 Not many years to live."
 The wasted years forever gone,
 The days I can't recall;
 If I could live those days again,
 I'd make Him Lord of all.

How to Have Devotions

Devotions MUST become an intricate part of your life. Discipline yourself for it. Start every morning with the Lord. Make sure you will not be disturbed.

1. **Start with a book and follow it through to the end.** (suggestion: 1 John)
2. **Pray a prayer like:** "Father, feed me now."
3. **Start to read** - thinking about what you are reading.
4. **Read until a verse says something to you,** and STOP right there.
5. **Re-read that verse a few times.**
6. **Think about what it is saying.** Mull it over in your mind (memorize it if possible).
7. **Then pray it back to God,** thanking Him for it. (Share it with someone if possible.)
8. **Have your prayer time.** (include your wanting to love Jesus more and also that soul you should be concerned for.) Finally give Him your body afresh for that day.

If you want more spiritual food, keep reading until another verse is drawn to your attention and do as before. Doing this daily will strengthen you and help you to be a faithful follower of the Lord Jesus.

God is also the Creator of Space and Matter and Energy, and it is appropriate and significant that the Bible alone has recorded, thousands of years in advance of their modern discovery, scores of scientific principles and truths, with not one demonstrated scientific error. The greatest scientists of all time - Newton, Kepler, Pascal, Faraday, Maxwell, Kelvin, Pasteur, and scores of others of comparable caliber - have been Bible-believing Christians. Even today, in our skeptical age, there are thousands of fully qualified scientists who believe the Bible as the inerrant Word of God.

A Thot for Parents

I have found that I am more aware of bad language, improper dress and behavior, etc. out in the world than when I used to watch broadcast television. I believe television dulls the senses in these areas and we become calloused and complacent concerning things that should be offensive to a Christian. I do more Bible study in the evenings or just spending time enjoying the outdoors with my wife. People have a hard time believing we don't have cable or satellite TV, but I have not missed it. I knew the Holy Spirit was not comfortable watching and listening to what was on commercial television. We even tried just subscribing to nature and family channels for awhile, but the commercials on those channels advertising for other networks were just as bad as the shows themselves, so we had to give it all up.

Teacher Tips

"Organize or Agonize" is an expression that I share with anyone who will listen! Please understand, there is more to this quote than meets the eye - organization is not the main thing, it simply enables us to do the main things more successfully. In the Lord's work, how much time has been wasted, how many mistakes have been made, and how often have we failed to seize the moment of opportunity due to disorganization? God's church deserves our best!

Gentlemen

by Dr. George Alquist, Jr

A gentleman will always share his umbrella.

When sharing an umbrella, the taller of the two should hold it.

No gentleman will stare rudely at ladies nor make slighting remarks concerning them.
